Hon. MAYOR STRIKE B. REVILLA

City Mayor, Bacoar City
Government
City Hall, Bacoar City, Cavite

Subject: Request for Permission to Conduct a BDRRMO Key Informant Interview and Preliminary Dataset Availability Inquiry for FloodSense

Dear Hon. Mayor Strike B. Revilla:

Greetings!

We, the undersigned undergraduate researchers from Cavite State University - Bacoar City Campus, respectfully request permission to interview an authorized representative of the Bacoar Disaster Risk Reduction and Management Office (BDRRMO) and to obtain available datasets needed for our undergraduate thesis, FLOODSENSE: AN ANDROID-BASED EXPERT SYSTEM FOR FLOOD SUSCEPTIBILITY ASSESSMENT AND PRE-EVENT PREPAREDNESS IN BACOR CITY.

We specifically request available non-confidential records concerning historical flood incidents and affected locations; flood depth, duration, and severity; flood hazard or susceptibility maps; geographic boundaries and spatial data; rainfall and related observations; evacuation center information; preparedness materials; and their corresponding metadata, legends, or data dictionaries. We would also appreciate sample copies of available sample records, blank forms, or publicly releasable datasets.

Using the attached BDRRMO Key Informant Interview and Data Availability Guide, we will clarify each dataset's coverage, format, variables, update frequency, known limitations, responsible office custodian, and conditions for academic use. If a requested dataset belongs to another city office, we respectfully request guidance or referral to the appropriate data custodian.

We understand that some records may contain confidential, personally identifiable, or operationally restricted information. We therefore request only records that BDRRMO or the proper approving authority may lawfully release, including aggregated, anonymized, or redacted versions when necessary. All authorized information will be used solely for academic purposes, stored securely, properly attributed, and handled according to the City Government's requirements.

We respectfully request your approval to coordinate the interview with BDRRMO and to receive the available and releasable datasets identified above. Thank you for considering our request.

Respectfully yours,

MARTIN LORENZ D. JUANITES
